

## BUSINESS DSL

*...TrueNet's DSL has been always been a great solution for the clients of our IT consulting firm. It's inexpensive, reliable and the outage alerting service keeps us proactive...*

» Jon Barry, President, Bulldog PC Services

## FEATURES

### OUTAGE alerts

Outage alerts sent to mobile phones and email

### FASTER speeds

Bond multiple DSL circuits together for speeds up to 14 Mbps!

### VPN DSL

Connect offices together with point to point, private DSL circuits

### No contracts

TrueNet doesn't lock our customers into long contracts - cancel anytime!

### 99% uptime

TrueNet guarantees our DSL Connections for 99% Uptime

### LIVE support

Support calls are answered live, by local support staff

## BENEFITS

### > Inexpensive

TrueNet's DSL network is business only, which means you get business quality performance at a cost that is often less expensive than your monthly cell phone bill.

### > StaticIP Addressing

Every TrueNet DSL circuit comes standard with a Static IP, which enables businesses to host their own mail, web or application servers.

### > Connect Privately

Need to connect multiple offices? By installing TrueNet DSL at each location, TrueNet can route data traveling between the locations privately, and off the public Internet.

### > 5 Star Support

One of the last providers that answers phone calls live, TrueNet is proud to deliver a customer service experience unmatched in our industry.

## PRICING

Price includes dedicated DSL circuit (line-share or dry line) and 1 IPv4 Static IP Address
