

## TRUEMAIL HOSTED EMAIL

TrueMail is an enterprise level email, messaging and collaboration service that enables business users to communicate, share and work from anywhere in the world at any time.

## FEATURES

### MOBILE sync

Works with iPhone®, Android® and nearly all mobile phones.

### GRAPHICAL reports

View email analytics in easy to read, graphical reports

### WEBMAIL portal

Fully functional, feature rich Webmail portal

### FILE sharing

Share files with anyone instead of sending large attachments

### INSTANT messaging

Instantly message anyone in your company - from the web or desktop

### FULL collaboration

Share calendars, files, tasks, notes and more

## WHATS INCLUDED

### ➤ Instant Messaging

Instantly communicate with anyone in your company, from webmail or your desktop with TrueMail's Instant Messaging Feature. Archiving of messages is available.

### ➤ ActiveSync

Sync email, calendars, tasks and notes to Android®, iPhone®, iPad® and nearly all makes and models of mobile phones and tablets.

### ➤ File Sharing

No more sending email attachments! TrueMail file sharing lets users store their files online and share them with anyone in the world by sending a downloadable link.

### ➤ Collaboration

Work efficiently and stay in touch! TrueMail collaboration tools allow users to create meetings, invite attendees, chat, share tasks and more.
